MAIN DIMENSIONS

	mm
Distance between the columns	8.000
Distance between the table and the spindle	8.000
Overall length of machine , ca.	48.000
Overall width of machine , ca.	26.000

INTEGRATED ROTARY TABLE

Table diameter	7000 mm
Max swing under gantry	8000 mm
Max swing in front of gantry (a special type of job)	13000 mm
Max. power of table drive motor	150 kW
Max. table load	200 t

ROUTES

	mm
Gantry travel (X axis)	29.000
Boring and milling head horizontal travel	9.000
Ram vertical travel (Z axis)	3.500
Cross rail vertical travel (W axis)	6.000

13-SPECIAL MILLING-DRILLING HEADS

Max. power	105 kW
